

JCNS Workshop 2008

Modern Trends in Neutron Scattering Instrumentation

15.-17. Oct. 2008, München-Bernried

Topics:

- novel concepts in time-of-flight applications in neutron spectrometers
- high resolution neutron spectrometers (backscattering, NSE)
- instrumentation for large scale structure studies and structured interfaces (SANS, GISANS, reflectometry)
- status and applications of neutron polarization and polarization analysis
- new horizons for neutron diffraction and spectrometry
- Larmor labelling techniques

Deadlines:

Submission of abstracts: 15 Aug. 2008

Notification of acceptance: 25 Aug. 2008

Final registration: 5 Sep. 2008

Workshop Fee:

normal participants: 400 EUR

students: 210 EUR

Includes full lodging and board at Hotel Seeblick Bernried, workshop diner and excursion to FRM II in Munich-Garching
