

The 20th Meeting of the
International **C**ollaboration on **A**dvanced **N**eutron **S**ources,
hosted by Centro Atómico Bariloche, will be held from
March 4 to 9, 2012 in Bariloche, Argentina.

The International Collaboration on Advanced Neutron Sources (ICANS) was founded in 1977 by a group of scientists, as a forum to promote discussions and collaborative work, and to share information on three main topics: Accelerators, Targets and Moderators, and Instruments. The 20th meeting of ICANS, will be held for the first time to the Southern Hemisphere during March 4 - 9, 2012, in Bariloche, Argentina. We are very proud and excited for such a distinction, and eagerly hope that you will be joining us.
