

FPSchool 2012

**5th ILL Annual School on
Neutron Diffraction Data Treatment
using the FULLPROF SUITE**

**23 – 27 January 2012
Grenoble, France**

FPSchool aims to contribute to the training of scientists in treatment of X-ray and neutron diffraction data. The school is based on intensive hands-on sessions using the computer programs of the **FullProf Suite**.

FPSchool-2012 will take place over 4 days at the Institut Laue-Langevin in Grenoble, with lectures in the morning and hands-on tutorials in the afternoon. The tutorials will give the essential tools necessary to use productively the **FullProf Suite** at an average level. In addition to general applications, magnetic structure determination and refinement will be specifically addressed.

Important Deadlines:

Application	22 nd November 2011
Acceptance	2 nd December 2011
Registration	22 nd December 2011

Organizing committee:

Chair: Juan Rodríguez-Carvajal
Co-chairs: M-Hélène Lemée-Cailleau
Gabriel Cuello
