

Flipper 2013

Single-crystal diffraction with polarised neutrons

Institut Laue-Langevin, Grenoble, France
23 -25 January, 2013

E-mail: flipper2013@ill.eu
<http://www.ill.eu/flipper2013>

International Scientific Committee

- Thomas Brückel (JCNS, Germany)
- Javier Campo (University Zaragoza, Spain)
- Pascale Deen (ESS, Sweden)
- Blanka Detlefs (ESRF, France)
- Jason Gardner (NIST, USA)
- Béatrice Gillon (LLB, France)
- Kazuhisa Kakurai (JAEA, Japan)
- Sean Langridge (ISIS, UK)
- Garry McIntyre (ANSTO, Australia)
- Louis-Pierre Regnault (CEA-G, France)
- Bertrand Roessli (PSI, Switzerland)
- Virginie Simonet (CNRS, France)

Local Organizing Committee

- Anne Stunault (ILL)
- Laurent Chapon (ILL)
- Eric Ressouche (CEA, Grenoble)
- Andrew Wildes (ILL)

Secretary

- Laurence Tellier (ILL)

Important dates

Opening on-line registration	01/10/12
Application for financial support	30/10/12
Registration and abstract submission	30/11/12
Notification of oral contributions	05/12/12
Deadline for payment	31/12/12
Arrival	22/01/13

Scope

- Magnetism in metals, intermetallic compounds and alloys
- Actinide and rare-earth magnetism
- Magnetism and superconductors
- Giant-magnetoresistant compounds
- Multiferroics
- Molecular magnetism
- Frustrated systems
- Chiral magnetism and anisotropy
- Instrumentation and new methods

- Flipping ratios
- xyz polarization analysis
- Polarimetry
