

# Neutron Sciences Call for Proposals Due October 14, 2015

Proposals for beam time at Oak Ridge National Laboratory's High Flux Isotope Reactor (HFIR) and Spallation Neutron Source (SNS) will be accepted via the web-based proposal system until **11:59 a.m. (EDT) Noon, Wednesday, October 14, 2015.**

This call is for experiments anticipated to run from January–June 2016.

## Information and instructions

To learn more about submitting a proposal for beam time, go to [neutrons.ornl.gov/users/](http://neutrons.ornl.gov/users/) or directly to the proposal system at [www.ornl.gov/sci/iuims/ipts/](http://www.ornl.gov/sci/iuims/ipts/). Previously submitted proposals may be used as the basis for new proposals. All proposals will be reviewed for feasibility, safety, and the potential for high-impact science. Before beginning approved experiments, users must complete access and training requirements and ensure that the appropriate user agreements are in place.
