# Neutron Delivery Systems 2015

## 4<sup>th</sup> International Workshop

NDS 2015 - INVITATION

Dear fellow neutron scientists and engineers,

The ILL is pleased to invite you to the 4<sup>th</sup> **Neutron Delivery Systems Workshop** that will be held in Grenoble, France from the **28<sup>th</sup> to 30<sup>th</sup> of September 2015**.

Following the success of previous workshops this meeting presents a unique opportunity to share knowledge and feedback on the state of the art in neutron transport, optics and moderation technologies.

This workshop will cover the following topics:

- **Progress in neutron guide design, innovative concepts and materials**
- **Review of newly installed neutron guide systems worldwide**
- **Neutron guide ageing**
- **Advances in mirror and super-mirror science and technology**
- **Moderation of neutrons for the production of cold and ultra-cold neutrons**
- **Simulation of neutron sources and neutron transport**
- **Neutron optical devices.**

This workshop is intended for engineers and scientists involved in the use, design and manufacturing of neutron delivery systems and their components.

An industrial exhibition will be organised for Tuesday 29<sup>th</sup> September. Companies involved in the manufacturing of neutron delivery systems will have the opportunity to present their products and capabilities.

For further information, registration and abstract submission please visit: <http://www.ill.eu/nds2015>

### Important dates

**31<sup>st</sup> May:** Abstract title submission deadline.

**31<sup>st</sup> July:** Abstract submission deadline.
